SUMMARY

Experienced Data Annotation Specialist with hands-on expertise in data labeling, image annotation, and quality review, focused on delivering accurate, consistent, and well-structured datasets. Skilled in handling large volumes of data with strong attention to detail and adherence to guidelines to ensure high-quality outputs. Passionate about supporting AI and machine learning projects by providing reliable and precise annotated data.

SKILLS

Java Basic	Generative Ai
MS Office	Adobe Photoshop
HTML	Data Annotation

EXPERIENCE

Up2datez Private Limited | Technical Associate | 07/2024 To Present

- Results-driven Data Annotation Specialist with proven experience in data labeling, image annotation, and quality assurance across diverse datasets. Demonstrated ability to maintain high accuracy and consistency while meeting tight deadlines and project guidelines. Adept at collaborating with teams to improve annotation processes and ensure reliable, high-quality data for AI and machine learning model development.

EDUCATION

Bachelor of Computer Application (BCA) 74%

June 2021 - Jul 2024

Sri Sankara Arts and Sciences Colleges

- Strong foundation in programming and web technologies. I have also created two websites — my personal portfolio and a mobile shop website — showcasing my front-end development skills.

PROJECTS

PORT FOLIO WEBSITE - HTML, CSS, JavaScript, GitHub Pages

- I designed and developed my own portfolio website to showcase my skills, projects, and professional journey. This project highlights my expertise in front-end development and creativity in web design.
